Installation Guide

Welcome to FlowIQ

Thank you for purchasing **FlowIQ** — the Excel add-in that supercharges your workflow. This guide will walk you through the one-time installation process in just a few minutes. Once installed, FlowIQ will appear automatically every time you open Excel.

What's Included in Your Download

■ Export Sheets to ZIP

Select any sheets and export them as individual Excel files packed into a single ZIP — perfect for sharing or archiving.

■ Lock / Unlock Sheets

Protect your sheets with a password in one click. Unlock them just as easily whenever needed.

■ Merge Sheets Data

Combine data from multiple sheets into one master sheet — with smart header handling so you never get duplicates.

■ Merge Workbooks

Upload multiple Excel files and merge all their sheets into a single workbook instantly.

Installation Steps

Follow these 4 simple steps to get FlowIQ running in Excel:

Save the manifest.xml file

After downloading your purchase, locate the file named **manifest.xml** and save it anywhere on your computer — for example, your Desktop or a dedicated folder like **C:\FlowIQ**.

Open Excel and go to Add-ins

Open Microsoft Excel. Click the **Insert** tab in the ribbon, then click **Add-ins** → **My Add-ins**. In the dialog that opens, click **Manage My Add-ins** → **Upload My Add-in**.

Upload the manifest file

Click **Browse** and navigate to where you saved **manifest.xml**. Select it and click **Upload**. Excel will verify and install FlowIQ automatically.

Start using FlowIQ

You will now see a **FlowIQ** button in the **Home** tab of your Excel ribbon. Click it to open the FlowIQ panel. That's it — FlowIQ will appear every time you open Excel!

■■ **Requirements:** FlowIQ works with Microsoft Excel on Windows and Mac (Microsoft 365 or Excel 2016+). An internet connection is required for the add-in to load. No account or login needed after installation.
